

## Learning Log Home Learning CHALLENGES (Summer 2020)

Over a two week period, you are challenged to do one or more of the activities below as part of your home learning. These activities are designed to allow you to share your creative side and learn collaboratively with your siblings and family members. Please colour in the box when your chosen activity is completed.

Area	Challenge
I enjoy Reading	Mrs Harvey would like to buy some new books for our library. Which books would make your top ten and why?
I enjoy Writing	Summer is just around the corner! Write a poem about Summer - this could be a limerick, a haiku, a shape poem or a style of your own choice.
I enjoy Maths	Design a building/ landscape of your choice using a range of 2D shapes. Make sure you list the names of the shapes you have included and are accurate with your drawings. Are they regular or irregular shapes or a mixture of both? How many different 2D shapes can you include in your drawing?
I enjoy Art & Design	Sketch or/and paint a spring flower in your garden or nearest park.
I enjoy Science	Research a famous Scientist and make a poster to teach other children about them and their achievements.
I enjoy Geography	A 'biome' is a large area of Earth that has a certain climate and certain types of living thing. These are some of the main biomes: rainforest, temperate deciduous forest, boreal or taiga forest, grassland, savannah, desert, tundra, ice. Choose one biome (or more than one if you'd like) and draw a picture of the sorts of living things (plants and animals) that you would expect to find there. Make some notes about the climate and how plants and animals are adapted to this particular biome.
I enjoy History	Our early May Bank Holiday this year has changed date from a Monday to a Friday. This is to celebrate the 75 <sup>th</sup> anniversary of a significant historical event in Europe. Find out what this anniversary is and present your research in an engaging manner.
I enjoy RE	Watch 'Secret of the Kells' and learn about the early Celtic in Ireland and about the Viking invasions there. This excellent film is about the making of the early manuscript 'The Book of Kells' and is an animated film suitable for junior age children. Follow this up by finding out all about the making of medieval manuscripts.
I enjoy Spanish	Design and make a game to practise a topic of your choice. This could be a topic you have learnt about in your Spanish lessons or something you are interested in. You can design any kind of game you like, but some suggestions are matching games, dominoes, board games, snap. I'll look forward to playing them with you!
I enjoy Computing	Create a book on Book Creator (the app is free) on a subject of your choosing.
I enjoy PE	The Guinness world record for the most star jumps in one minute is 61. Time yourself and your family for one minute and see how many star jumps you can complete every day for a week. Then present your data in a table or line graph.
I enjoy Music	Find out how music sounded in historical time. <a href="https://www.hamilton-trust.org.uk/topics/lower-key-stage-2-topics/stone-age-iron-age-britain/culture-and-art/">https://www.hamilton-trust.org.uk/topics/lower-key-stage-2-topics/stone-age-iron-age-britain/culture-and-art/</a> .
I enjoy...	<b>What is your own Home Learning task you would like to complete? Record it below...</b>

Learning Logs are due in by:

Monday 4<sup>th</sup> May

Monday 18<sup>th</sup> May

Tuesday 9<sup>th</sup> June

Monday 22<sup>nd</sup> June

Monday 6<sup>th</sup> July

Monday 20<sup>th</sup> July
