

Mrs Evans Year 5 Class Teacher

What I do at school

My most important job here at Banks Lane Junior School is teaching in year 5! I love building positive relationships with all of my children, whilst making sure learning is as fun and engaging as possible!

Some of my favourites...

I love being outdoors, particularly running and cycling. I've ran three half marathons, cycled from Manchester to Blackpool and love competing in the weekly 5K Parkrun. When I'm not running around, I love to read! Especially reading with my three year old (She's decided that she loves anything by Eric Carle).

How I can help you

As a teacher, I want children to have lots of opportunities to feel confident to share their ideas and to feel happy in my classroom. I always say that mistakes are welcome and to always have a go! I'm here to listen to any problems so we can overcome them together!

What I like to do at home

I enjoy spending time with my family. Me and my daughter do lots of different activities together such as dancing, gymnastics and running around at soft play (I think I enjoy this more than her!). I now also live in the countryside and love to find new spots to stop and have a picnic!

Other interesting things about me

I love to learn new things and challenge myself. I am part Italian and have studied the Italian language so I can talk to my family over in Italy. My favourite subjects are maths (I even like figuring out algebraic equations for fun), science and physical education - I can sometimes be found running around playing football!
