SQUID GAME

We have been given the following information regarding the Netflix show Squid Game. Squid Game is currently one of the most popular shows on Netflix and has a rating of age 15 and above. The programme centres around a series of children's games that have deadly consequence, and is very violent in nature. We understand that there is other adult content and despite its initial appearance it is **not suitable for younger children**.

Parents can apply parental controls to Netflix if you wish by setting up a Netflix children's profile, this limits viewing to TV shows and movies which have been carefully selected for children.

To do this:

1. Go to Netflix.com/account.
2. Scroll to 'Profile & Parental Controls' and click on the profile you want to manage.
3. Click 'Change' next to the Viewing Restrictions setting.
4. Enter your Netflix password.
5. Set the maturity rating for the programmes and films you want to allow in that profile.

PARENTAL CONTROLS

One of our parents is working on a project for the European Commission which aims to bring age verification and parental consent to the UK and is designing a website aimed at informing parents and children about age verification and parental consent.

At present she is gathering information about what parents already know so has put together a short survey, if you get a moment please click on the link below to complete;

Please click on the link below to view the relevant safety video:
