

Mrs Pollitt – Teaching Assistant

How I can help you

If you need help with any of your work, then I can help! I can also help with your wellbeing, I run a weekly wellbeing group which can help you with any worries you might have.

What I do at school

I help the teachers by making sure we have everything in place to help with your learning. In the classroom, some of my other jobs include listening to you read, helping you with your times tables and helping you sort out any problems you might have.

Some of my favourites...

I love going out for meals. I love shopping and having coffee and cake when I've finished! I also spend lots of time with my daughter and grandson.

What I like to do at home

At home I love going in my garden, I enjoy making it look nice to sit in. I recently became a grandma so I'm kept busy looking after my grandson, playing with him and taking him for days out and lots of walks.

Other interesting things about me

I have a dachshund (sausage dog) called Minnie. I take her on walks on the beach and around county parks. I love to go on holiday to Spain where my friend lives where I can just relax and read a good book in the sunshine.
