

Danielle Howarth - SENDCo

How I can help you

If you are finding that learning is very tricky for you or you are having a difficult time getting through tasks in school, your teacher and I will work with you and your parents/carers to support you so that you find it less tricky.

What I do at school

I am the Special Educational Needs and Disability Coordinator (SENDCo). That means I work with members of staff to help support children who have additional needs with their learning.

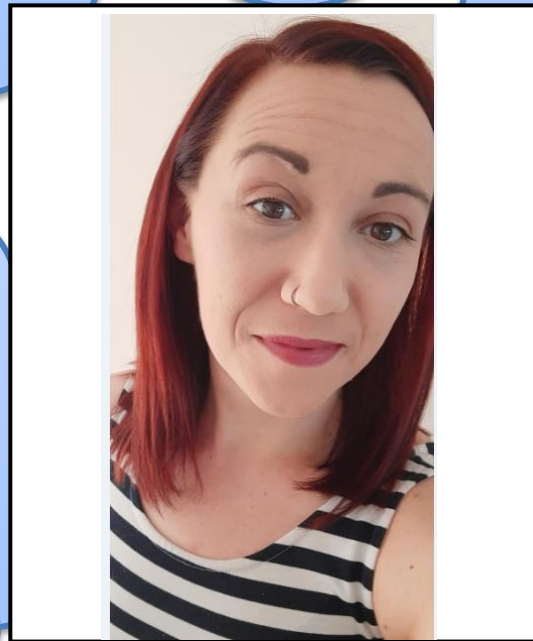

I am also responsible for medical needs and children who have English as an additional language (EAL).

What I like to do at home

I enjoy cooking, baking and the odd spot of gardening (although I'm definitely a beginner at this!). I like to visit lots of different places with my 2 children such as parks, beaches and forests.

Some of my favourites...

I enjoy exercising and doing HIIT workouts in my spare time. My favourite food is pizza and I love making my own at home. I like cats and have 2 at home called Mike and Mollie.

Other interesting things about me

I have 2 children; Niamh who is 4 and Lachlan who is nearly 2. My husband is also a primary school teacher. We live 20 miles away from school in Bury.
