

Mr Gillies - Class Teacher

What I do at school

My most important job here at Banks Lane Junior School is to be the class teacher. It is my second year teaching at this school and I am very excited to get to know everybody and support my class on their journey through their new year.

Some of my favourites...

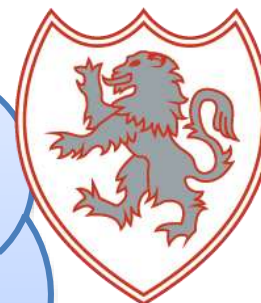

I love travelling to new places. One day I would like to visit Vietnam - I did have this booked but COVID had other plans!

I love listening to music and going to gigs and festivals. My favourite festival so far has to have been Glastonbury.

I also love food (both cooking and eating!) so I regularly visit new restaurants.

How I can help you

My classroom is a safe and welcoming environment; I am always available should you need to speak to me about anything big or small. I will support you with all your learning and answer any questions that you may have. I am also here to help your parents with any concerns they may have.

What I like to do at home

My partner has recently given birth to our first child so my home life is pretty busy! I love spending time with my family and going for walks in the countryside. I enjoy running and have completed several half marathons but for some reason I'm struggling to find the time at the moment!

Other interesting things about me

Before I was a teacher, I used to design websites for different companies.

I once walked 54 miles to raise money for charity - it was very difficult!
