

How I can help you

In my role as a Teaching Assistant I can help you with Maths and English, or any other subjects. I will support you to become an independent learner. I also do well-being groups in the afternoon, we do lots of fun things while taking about any problems we may have.

What I do at school

I am a Teaching Assistant. You may see me in the classroom helping the teacher with various jobs. I am also the Restorative Approach leader in school this means I will help you and your friends if you have a fall out, we will find a solution to the problem, so you can move on and be friends. I have completed a Well-being course to help you work through any problems or emotions you may be feeling.

What I like to do at home

At home I love to read and I have recently tried Diamond Art which is very relaxing. I also like to watch a good film on a rainy day.

Some of my favourites...

I like to watch football; my favourite team is Manchester City, I used to work there, which was great fun. I go swimming 3 times a week with my friends. I love going on holiday.

Other interesting things about me

I am left-handed. I have 4 children Damien, Michael, Adam and Katy. I have 2 Grandchildren Ben and Jess, Ben is in a Pool team, so I go to watch him play, Jessica likes to go shopping.
